  - ❖ Behavioral Health Services
  - ❖ Medical
  - ❖ Sacramento County Office of Education
  - ❖ Other supports as identified (i.e. Therapist, mentor, etc.)

## Re-entry Areas of Focus

## R.E.D.Y-Go (Re-Entry Development for Youth)

Re-entry services and planning are utilized to transition youth who have been in out-of-home placements or who have served periods of confinement back to their home communities. The Re-entry process promotes public safety and ensures on-going, positive youth development.

The Re-Entry Team includes representatives from Probation Field Services, Behavioral Health Services, Medical, Sacramento County Office of Education, parent/guardian, youth, assigned Probation Officer (s) and any other identified participants (counselor, mentor, etc.) who are involved in the youth's life.

The Re-Entry Team Meetings are held weekly and establish action plans to assist the youth and parent/guardian with school enrollment, counseling services, vocational training, employment assistance, resume building, mentorships, specialized program referrals, and pro-social community activities.
