POSITIVE IMPACT

NEW RESOURCE FOR PROBATION WELLSPACE HEALTH SURE PROGRAM

WellSpace Health is offering a valuable resource to probation officers and clients, Substance Use Respite Engagement (SURE), a voluntary program for adults to recover from acute intoxication.

The SURE Program is available for clients age 18 and older who have been referred by Probation or other authorized referral partners. Referral partners must stay with the client during the intake process for a warm handoff. The program does not take walk-ins.

- Officers may utilize the program as a resource when a client is intoxicated and needs a safe place to recover. SURE is a voluntary program for clients who are simply intoxicated and is not intended as an alternative to arrest/custody.
- SURE offers clients access to a resting pod of either a mattress or recliner, restrooms, drinks and snacks, and clean temporary clothing. WellSpace Health staff will provide treatment services and medical referrals.

FAMILY URGENT RESPONSE SYSTEM

The County Family Urgent Response System (FURS) is a new service developed through a partnership between Probation, Behavioral Health, Child Family and Adult Services and Community-Based Services. FURS is a service for current or former foster youth (up to age 21) and caregivers where they can call and get immediate, trauma-informed support by caring and trained professionals to help with any big or small issues they may be having. This service includes a free 24/7/365 statewide hotline and 24/7 County-based Mobile Response and Stabilization support. FURS is intended to:

- Prevent placement disruptions and preserve the relationship between the child or youth and their caregiver
- Reduce the need for a 911 call or law enforcement involvement and the needless criminalization of traumatized youth
- Reduce hospitalization and placement into congregate care
- Promote healing as a family
- Provide a safe and judgement-free space for youth and caregivers
